Transportation Solutions

Industrial Cleaning Solutions

POWERVAC - Industrial Vacuum Loader

- Developed for suctioning, discharging and transporting hazardous liquid substances
- Suitable for liquids, sludge, oils, fuels, chemicals etc.
- Designed for heavy industrial applications
- Most suitable in oil & gas and petrochemical industries
- Powerful suction force
- Built to the latest International and Gulf environmental and safety standards

- Developed for heavy industrial application
- Designed for suctioning, discharging, transporting dry, wet and hazardous substances like sand, gravel, stone, fly ash, fine powders, heavy sludge etc.
- Perfectly performing in steel, Aluminum, phosphate, cement, petroleum, and petrochemical industries
- Air displacing system with cyclone separator and highly efficient filter bags.
- Powerful suction force
- Built to the latest International and Gulf environmental and safety standards

SUPERVAC - Industrial Vacuum Loader

POWERVAC LT - Industrial Vacuum Trailer

- Designed, Developed & Manufactured in compliance with API 2219 & GS972
- Designed for suctioning, discharging, and transporting hazardous liquid substances
- Suitable for liquids, sludge, oil, fuel etc.
- Most suitable for petroleum waste
- Large vacuum tank, fewer trailer movement
- Powerful Liquid ring pump

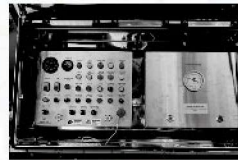

Transportation
Solutions

Industrial Cleaning Solutions

JETVAC - Combination Tanker

- Developed for industrial and municipality cleaning applications.
- Available in semitrailer version
- Suitable for oily waste, slurry, sludge, sewage etc.
- Powerful high-end vacuum systems.
- Suitable for high pressure cleaning up to 600 bar as option
- Built to latest Gulf and International environmental and safety standards

- Designed for heavy industrial cleaning
- Diesel engine driven units up to 40,000 PSI
- Various flows and pressures adequate to different applications.
- Available on skid or trolley.
- Most suitable for Heat exchanger cleaning, pipe cleaning & de-scaling, tank & vessel cleaning etc.

Hydro Jetting solutions

Cleaning & Waste Management Solutions

Refuse Collection Trucks

- Constructed from high tensile steels and wearable steel in abrasive exposed areas.
- Extremely durable with long operating life
- High compaction force
- More payload
- Strong complete rubber seals in tailgate area
- Loading can be done manually by hydraulic bin lift or by skip lifter
- Efficient operation
- Faster collection

Hook Loader

- Most advanced Skip loader
- Safe, Efficient, and speedy operation
- Suitable for residential, industrial, and commercial waste management
- Optimized design using high tensile steel which maximize the strength.
- Longer arms and no cross bars.
- Wider rear stabilizers ensure safer operation.
- Fixed, telescopic or cranked arms.
- Pneumatic operated tipping hooks as option

- Developed for optimized waste-management
- Manufactured in Europe to stringent design standards
- Suitable for residential, industrial, and commercial waste management
- Designed for increased productivity, reduced weight ease of use and maximum payload
- Safest, most reliable, and fastest
- Efficient equipment to fill and transport waste containers
- Automatic easy sheet covering system as option
- Available in variety of selections

Skip Loader

- Designed to meet all lifting requirements
- Suitable for construction, pipeline, mining, transportation, defense, and electric line maintenance
- The most reliable hydraulic cranes
- High performance, ease of use and higher safety
- With mechanical advantage for lifting and lowering heavy materials
- Wide range of attachments available based on application
- From light compact to robust high capacity

Truck Mounted Cranes

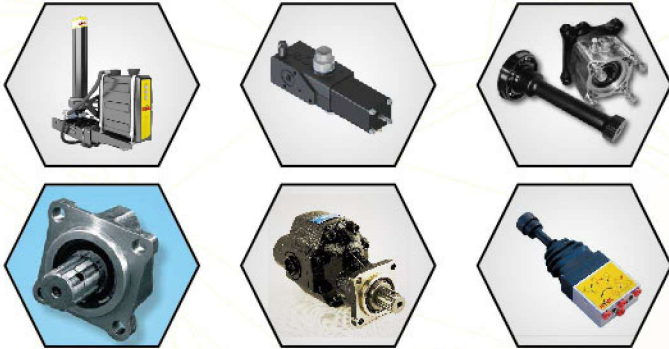

- Developed for local delivery applications
- Suitable for loading and offloading easily and safely
- Equipped with lifting and lowering platform
- Reduces manual labor and risk of damage and injury
- Available in different types and capacities (cantilever, sliding, foldable, column lift and others) depends on application
- Recommended for medical, food & beverage, gas bottles, and sensitive instruments transportation

Tail Gates

Hydraulic Kits for Dump Trucks

- Hydraulic kit for dump trucks (Wet Kits)
- Hydraulic tipping cylinders
- Hydraulic Pumps
- Hydraulic tipping valves
- Hydraulic oil tanks
- Drive Shafts
- Power Take Offs (PTO's)

- Vacuum pumps
- Jetting pumps
- Vacuum tanker accessories
- Gate valves
- Primary & Secondary shut-off valves
- Silencer oil filters
- Vacuum and pressure safety valves
- Hose reels
- Sewer cleaning hoses
- Unloader valves
- Nozzles

Vacuum and Jetting Components

Fuel Tanker Kits and Accessories

- Complete bottom loading kits
- Fuel transfer pumps
- API Adaptors
- Emergency Valve
- Vapor Adapter
- Manhole Cover
- Dust Cap
- API Interlock
- Overfill protection sensor

- Electric planetary winches
- Electric worm gear winches
- Hydraulic Planetary Winches
- Hydraulic worm gear winches
- Winches for oil field applications
- Winches for towing & recovery applications
- Winches for military, off-road applications

Winches

Company Profile:

Founded in 1984 by Mr. Ibrahim Ali Al Rashoodi, Alaa For Industry (AFI) is a leading industrial and engineering organization headquartered in Dammam, Kingdom of Saudi Arabia. Our Business activities include industrial solutions/MRO, transportation solutions, equipment sales and rental, contracting, and chemicals

From our humble base in Dammam the company has grown steadily over the past three decades and now has facilities in 12 locations across four GCC countries. Our workforce now exceeds 600 persons. At the core of our business philosophy is delivering high quality products and solutions to our customers, backed up by excellent after-sales service and technical support. For us the customer is always the priority. In particular, we pride ourselves on our inhouse capability to design and manufacture high- quality technical products to serve the local market needs.

AFI Business Units:

- AFI Industrial Solutions
- AFI Transportation
- AFI Equipment
- AFI Oil & Gas
- AICCO - Contracting
- ARECO - Equipment Rental
- AFI Chemicals
